**MASTER BUILD GUARANTEE No. 124601 – WORKMANSHIP AND MATERIALS
COVER**

Dear Sir/Madam

Master Build Services is in receipt of the completion notice for the dwelling located at 33 Infinity Drive, Wanaka, advising us that it is near completion.

We advise that in this instance we will not undertake a final inspection of the dwelling, as Master Build Services has the right to inspection but is not obliged to do so, as we believe that the regular inspections performed by the territorial authority's building inspectors are sufficient.

We have informed the Owner(s) that if they are satisfied that all requirements of the Building Contract have been met, except for minor defects and omissions, which do not prevent the dwelling from being practically complete, then they should now make full and final payment to you in accordance with their Building Contract. We have also informed the Owner(s) that the Guarantee shall become null and void in the event they fail to make the final payment including the release of any retention, upon completion of the dwelling and receipt of Master Build Services approval. As per the above paragraph, this is our written approval.

Your Workmanship and Materials Cover will commence from 20 October 2011, and will expire on 20 October 2013, at which stage Structural Phase Cover will commence and expire 5 years later.

Please read your Guarantee Agreement so that you are aware of all the terms and conditions. If you have any further questions please do not hesitate to contact Master Build Services Ltd on 0800 269 119.

Yours faithfully

Elliot Bird

Building Work

Building consent number: 110463

Issued by: Lakes Environmental Limited

Code Compliance

The building consent authority named below is satisfied, on reasonable grounds, that —

- (a) the building work complies with the building consent

Signature

BUILDING OFFICER
Position

On behalf of: Lakes Environmental Limited

Date: 18/10/11

Limitations of this Code Compliance Certificate

- This Code Compliance Certificate has been issued because the Queenstown Lakes District Council was satisfied, on reasonable grounds, that at the date of its issue, the building work was completed in accordance with the Building Code in force at the date of issuing the Building Consent, (and where applicable, any previously approved waiver or modification of the Building Code contained in the building consent for the work).
- Since the date the Building Consent was granted, the Building Code may have been amended. This certificate is not a representation that the building work meets the requirements of any amendments to the Building Code made since the Building Consent was issued.
- This Code Compliance Certificate is not a guarantee that the whole of the work has been completed in accordance with the Building Code or Building Consent, but that the Council was reasonably satisfied.
- The Code Compliance Certificate relates only to the state of the building work at the date of issue, and is not a statement that the building will remain sound throughout its life.
- Various types of building methods and materials do have specific requirements for ongoing inspection, cleaning & maintenance. The owner needs to be familiar with these standard practices, manufacturers instructions, and warranty conditions which must be complied with in order to maintain the integrity of the building work. All materials and components will deteriorate over time.
- Regular Inspection and maintenance by the building owner is particularly important in the harsh environment and climate experienced in the Queenstown Lakes District. In some cases – complete replacement of building components will be a requirement where they have deteriorated, or have passed their manufacturers warranty period – for example – sealants, waterproofing membranes, paint coatings.
- No representation is made as to the compliance of all items of building work on the specific site to which this Code Compliance Certificate pertains. This certificate relates solely to the building work specifically described in it. It does not relate to any other work. The Queenstown Lakes District Council cannot be held responsible for any other subsequent, or preceding building work, including maintenance, which has been done other than in accordance with an approved building consent.
- Nobody should rely solely upon this Code Compliance Certificate as representing that the building work is weathertight or otherwise sound, fit for its purpose and of acceptable quality. It is a snapshot only, which assesses the Building's compliance with the Building Consent, and Building Code on the date of issue. The soundness of the building will depend, among other things on its subsequent use and the ongoing maintenance performed.
